

For customers considering purchasing Lemnos products in Japan

**The Lemnos radio-controlled clock  
can only be used in Japan.**

The Lemnos radio-controlled clock can only be used in Japan as it is not equipped to receive signals overseas.

When you purchase a Lemnos Clock in Japan, please confirm that it isn't a radio-controlled one.

With regard to exports, for overseas customers' ease of use, we change the specification of the Lemnos radio-controlled clock to make it non-radio-controlled, and we sell them through our authorized distributors.

Regarding the guarantee and repair of radio-controlled clocks for overseas customers, please note that they are not supported by our authorized distributors.

Thank you for your continued patronage.
